MISSION STATEMENT	1
PUBLIC SAFETY DIRECTOR'S MESSAGE	2
POLICE DIVISION	3
FIRE DIVISION	6
ADMINISTRATIVE DIVISION & EMERGENCY MANAGEMENT	7
VOLUNTEER SECTION	8
PERSONNEL CHANGES	11

The mission of the Lino Lakes Public Safety Department is to collaborate with the community to provide:

- a healthy and safe community;
- a focus on prevention;
- a commitment to life safety;
- aggressive pursuit of criminals;
- respectful communication;
- encouragement for volunteerism.

Public Safety Director Message:

John Swenson
Public Safety
Director

Our public safety team has accomplished a lot in 2018 and continues to provide high caliber public safety services to our community. At the beginning of 2018, we developed five areas of focus after reviewing 2017 data. These areas of focus were:

- Continue fire prevention programs.
- Implementation of body worn camera (BWC) technology.
- Continue to train all police staff on crisis intervention and de-escalation techniques.
- Research medical calls for service.
- Develop domestic assault strategies to reduce community impacts.

Our staff members engaged in 311.25 hours of fire prevention activities in 2018. In addition to this, we completed 107 fire inspections and created 39 pre-plans. This undoubtedly was a factor in our ability to reduce the amount of property loss due to fire our community experienced in 2018 (2017 - \$325,100; 2018 - \$205,100). It is my hope that in 2019 we will be able to increase the number of hours that our team is engaged in fire prevention efforts to further increase safety for our team and community.

We successfully upgraded our in-car, interview and holding room camera systems as well as implemented a BWC system. Since May of 2018, our staff created 19,624 videos with this new and upgraded system with a total classification rate of 96%. Given these numbers, we anticipate the total number of videos for 2019 will surpass 30,000 videos. This system will be an incredible asset for our team and community for years to come with all of the videos created by our staff accessible in one system.

We continue to make great strides in our effort to send all patrol and investigators to 40-hour crisis intervention and de-escalation training. In 2018, we sent 7 members of the Police Division to this training bringing the total number of police staff that completed this training to fifteen.

Our medical calls for service had been increasing over the last two years and I am happy to report that in 2018 our medical CFS decreased to 765 (2017 – 803 medical calls). In an effort to curb this upward trend in 2018, we examined the medical CFS at our two assisted living facilities. This analysis resulted in the development of some protocols that our assisted living facilities agreed to implement at their facilities. These new protocols leverage the on-site staff resources to successfully reduce the number of calls at each facility. This is a great example of our staff working collectively to proactively address a problem resulting in improved efficiency.

Following are tables detailing the calls for service broken out by month at each facility.

Gracewood Assisted Living - Medical CFS

December	7	4
Total	112	82

As our community continues to grow and new assisted living facilities are added in our community, these protocols will continue to benefit our community as a whole.

We collaborated with the Alexandra House and City prosecutor to examine the increase in domestic assault incidents in our community. This process led to the development of a three step process designed to address the underlying cause of these incidents. I am very happy to report that this process has led to a reduction in the number of domestic related assaults in 2018 (37 domestics) in comparison to 2018 (63 domestics). This is a great example of our team looking for underlying issues, which lead to crime, and implementing strategies to address the underlying issues thus preventing future incidents.

On behalf of the members of the Public Safety Department, I would like to thank you for the opportunity to serve this great community!

Police Division

During 2018, we focused on reducing the number of domestic assaults occurring in our community and reducing the number of medical calls for services. These two areas were increasing since 2016 and were using more department resources.

Our community experienced a significant increase in the number of domestic related assaults from 2016 to 2017. This increase (2016 – 34 domestics to 2017 – 63 domestics) led to us to examine this problem to develop strategies to reduce the number of domestic related incidents in our community. We worked with the Alexandra House and City prosecutor and determined that a high number of these incidents involved mental health and/or substance usage. There was 162% increase in 2017 from 2016 in domestic related cases that listed mental health or substance usage as a contributing factor. In order to address this we implemented a three-step process to address these increases:

1. Provide prosecutors with evidence and information related to any mental health issues or substance usage as soon as possible.

2. Increase the involvement of Alexandra House with on-going victim support throughout the court process from Alexandra House personnel.
3. Prosecutors will insist offenders address the underlying mental health and/or substance usage issues as part of the court processes.

This three-step process has led to a reduction in the number of domestic related assaults in 2018 (37 domestics). This is a great example of our team identifying the underlying issues leading to a crime and implementing strategies to address those issues thus preventing future incidents.

Our police staff are primary first responders on all medical calls for service (CFS) with our fire staff only responding to major medical emergencies in our community. Our team achieved an average emergency response time of four minutes and sixteen seconds for medical calls for service. One potential threat to low response time is the increasing number of medical CFS. In an effort to curb this trend, we examined our historical data and determined that the medical facilities in Lino Lakes accounted for a high number of medical CFS, which led us to review every CFS with the respective facility staff. This resulted in the development of protocols for the facilities that leverage their staff's skills to provide a high level of care for residents and use the emergency medical services system for emergencies only. Since this implementation in April of 2018, these protocols decreased the number of medical CFS that our staff have responded to at our medical facilities.

Below are the Part 1 and Part 2 Crime and Arrest data for 2018:

CRIMINAL OFFENSES	Y-to-D	Y-to-D
Part 1 Offenses	2017	2018
Homicide	0	0

Below is a table which shows the total number of case numbers generated by Lino Lakes police staff for all calls for service and incidents at or above a misdemeanor level:

CASE NUMBERS GENERATED					
YEAR	Q1	Q2	Q3	Q4	TOTAL
2018	3,856	3,823	3,568	3,240	14,487
2017	4,508	4,418	4,829	4,444	18,199
2016	3,950	3,760	4,130	4,481	16,321

In 2018 the Investigations Unit of the Lino Lakes Public Safety Department investigated 135 cases, with 112 of these investigations resulting in the case being submitted to the prosecuting attorney for charging. These investigations and case dispositions produced a total clearance rate of 83%. As part of the investigative process, 24 search warrants were served. Along with the criminal investigations, 97 background checks were completed related to alcohol or tobacco license applications, solicitor permits, or pre-employment investigations. Investigations processed 174 discovery requests for video, photos, or other evidence were processed as cases proceeded towards trial. In addition, the Investigations Unit also utilized their police/fire cross training in their response to 43 medical and fire emergencies.

A few of the significant investigations conducted in 2018 include:

- Patrol officers responded to a sexual assault that occurred at a local restaurant. The resulting investigation led to the discovery of additional criminal activity, a liquor license suspension, and a prison sentence for the defendant.
- A lottery ticket fraud case was investigated, and with the help of state agencies, valuable evidence was collected. After being presented with the evidence the suspect confessed, was convicted in court, and is responsible for reimbursing the business impacted by the fraud.
- Investigators conducted a prostitution sting at a local hotel. Prior to the event taking place, extensive research needed to be conducted on how to preserve electronic communication that was to be used as evidence. The operation was successful, resulting in several arrests, and also fostered a relationship with a business that has a joint interest in limiting criminal activity.
- A lengthy investigation took place after reports of illegal activity occurring at a massage business were received. The investigation resulted in the temporary closure of the business, criminal prosecution of those involved, and a revision of city ordinance in effort to protect our community from future similar incidents.
- Investigators continued to use social media to assist with identifying suspects, and many investigations benefited from information provided by our citizens.

In addition to the investigations worked, the Investigations Unit also processed several crime scenes for DNA evidence, maintained their responsibilities as evidence technicians, coordinated the delivery of items to forensic laboratories for further examination, conducted follow up interviews, processed all the administrative forfeiture cases, instructed Fire trainings, served as DNR Youth Firearm Safety Instructors, and hosted CPR and First Aid trainings for our agencies volunteer groups.

Fire Division

Our community experienced an increase in our 2018 (356) fire call load in comparison to 2017 (230). The type of calls that made up the majority of these 126 calls for service (CFS) were related to vehicle crashes (NFR 300), hazardous conditions – no fire (NFR 400), service calls (NFR 500) and false alarms (NFR 700). Our police/firefighters responded to all 356 fire CFS and our paid on-call firefighters responded to 199 fire CFS in 2018. The fire call load increased by 126 CFS for our police/firefighter and 56 CFS for our POC firefighters in comparison to 2017.

Through our public safety response model we have developed a robust weekday fire response through our utilization of police/firefighters. In 2018 there were 158 fire CFS that occurred on weekdays between the hours of 0600 and 1800 hours. Our response model continues to be effective not only for weekday response, which have typically been problematic for suburban POC fire agencies, but also in moving lower level fire CFS to on-duty police/firefighter; rather than relying solely on POC firefighters for all fire response.

Our staff responded to 32 calls for service that involved fire. These calls resulted in \$205,200 in property damage/loss. Through these fire suppression efforts, there was \$1,791,500 worth of property saved in 2018.

FIRE DIVISION

Administrative Division and Emergency Management

The Public Safety Department continued to leverage staff, by partnering with Century College through a multi-jurisdictional continuing education program, as well as utilizing online resources to ensure that all public safety personnel receive the highest quality training and remain up to date on all state and federal mandated training requirements.

Our in-house certified instructors provide training in areas such as firearms, use of force, CPR, emergency vehicle operations, water rescue operations, and fire scene security. During 2018, in-house fire training was conducted twice a month and staff-required continuing education was conducted once a month through Century College.

Staff continued to utilize online resources for components of the hazardous material training requirement, employee right to know training, OSHA requirements, as well as both police and fire legal updates. Staff was also provided monthly online training updates on the department's policy and procedure manual.

Staff continued to evaluate the city's emergency warning siren system (a.k.a. tornado siren). No new sirens were added in 2018. However, as the city continues to grow and develop, we will continue to assess the need for additional sirens to ensure the safety of everyone in the community.

Front office staff attended the 2018 BCA Users conference where they received updates in Terminal Administration, National Incident Based Reporting, Criminal histories, firearms permits, and data practices. Our records unit continued to work at the successful implementation of our new records management system and criminal history systems. This was accomplished while performing the other tasks associated with their positions such as:

- Handling 4,627 police reports
- Filing 1,636 citations
- Processing 182 permit to purchase handgun applications
- Issuing 182 dog licenses
- Completing over 207 local records checks
- Processing over 765 criminal histories
- Processing 13 burn permits

Volunteers continue to assist the front office staff to help ensure success. Their assistance with filing, sorting, copying and miscellaneous duties is invaluable.

Volunteer Section

RESERVES - In 2018, the Lino Lakes Public Safety Department Reserve Unit was comprised of 15 volunteer reserve officers. These reserve officers supported the functions of the Public Safety Department in multiple areas. The police reserves participated in community events, provided traffic and pedestrian safety, provided uniformed patrol in marked patrol cars, and conducted home and business checks. They also assisted full time officers with community education, training events, prisoner transports and select calls for service. Their involvement and participation with the department are all

in an effort to help fulfill the mission of the department by providing a healthy and safe community, focusing on prevention, promoting life safety, aggressively pursuing criminals, encouraging volunteerism and continuing to enhance and strengthen the agency's community oriented policing philosophy.

In 2018, the Public Safety Department Reserve Officers were trained by LLPD staff and the reserve unit command staff in vehicle operations, use of force, officer safety, Taser, first aid, traffic direction, search and rescue, patrol tactics, public relations, legal issues, radio operations, occupational hazards, cultural diversity, report writing and officer assists.

In addition to this training, six of our Reserve Officers were certified in Project Life Saver. Project Life Saver is a search and rescue program that is designed for at risk individuals that are prone to wandering with a cognitive condition. These Reserve Officers are trained in the use of cutting edge locating technologies and techniques to effectively locate and safely return a missing individual.

Reserve officers handled 24 transports, assisted officers on 78 calls and handled 12 ordinance/public assist calls for service. This assistance enabled sworn officers to remain in Lino Lakes, available to patrol the city and to respond to calls for service. Throughout 2018, the Public Safety Department Reserve Officers donated over 2634 hours of service to our community.

CHAPLIN PROGRAM - The Lino Lakes Chaplain Program was formed in 2003 by a patrol officer who realized having such a resource would be a valuable asset to our agency. Lino Lakes Police Officers and Firefighters respond to a wide variety of critical incidents including situations where a death has occurred or a death notification has to be delivered. When these sensitive situations occur, chaplains are called to assist and provide an invaluable service, not only to public safety staff but to community members as well by being present in order to assist with crisis management. Chaplains are on call 24-hours a day, every day throughout the year.

Chaplain Pederson

Beyond assisting public safety staff with the aforementioned situations, chaplains are also tasked with keeping in touch with the wellbeing of our police officers and firefighters. This is accomplished by participating in ride-alongs with the officers or by stopping at the police/fire department to check in with staff.

In January of 2018 we welcomed Ryan Rehkamp from Saint Joseph's Parish to the chaplain program. Chaplain Rehkamp, who grew up in Arden Hills, had recently moved back to the area from Chicago. In March of 2018 Chaplain Rehkamp attended and completed training through the Minnesota Emergency Service Chaplain Association (MESCA), which is the premier training program for police chaplains. Chaplain Pederson, from Eagle Brook Church, joined our program in 2016 and completed his MESCA training in 2017.

Unfortunately Chaplain Rehkamp only served with our program until November 2018 when he resigned due to moving to Saint Paul and transferring to a church in Highland Park. Chaplain Pederson continues to serve our staff and community and has taken on additional responsibilities since the resignation of Chaplain Rehkamp. In 2019 we will seek to add an additional chaplain to the program.

CERT - The Lino Lakes Community Emergency Response Team (CERT) began in April of 2008 with twenty-five citizens attending the initial class. Since then three more basic classes have been held and we now have roughly fifty-five members in the program. CERT was formed in order to train citizens so they can respond during disaster situations.

In order to become a CERT member a person must complete a training program that covers topics such as: disaster preparedness, fire safety, disaster medical operations, light search and rescue, CERT organization, disaster psychology, and terrorism & CERT. During the last week of training the members participate in a final scenario where they use all the skills they have learned to rescue role-players during a simulated disaster situation.

Over the years CERT members have been activated for a variety of situations such as searching for missing people, looking for evidence at the scene of a helicopter crash and working community events such as Blue Heron Days and the fun run at Lino Lakes STEM School.

CERT members are offered additional training as it becomes available and most have been trained as storm spotters through Metro SKYWARN.

EXPLORERS - The Explorer Program is a program sponsored by local law enforcement agencies to provide career information to students between the ages of 14 and 20. It also provides the structure and resources needed for young adults to make ethical choices and to achieve their full potential as individuals.

Students learn first-hand the duties and responsibilities of police officers, by bringing interested youth and police officers together on a weekly basis. In April of 2018, 6 Explorers went to Rochester MN to compete at the 43rd Annual Minnesota Police Explorer Conference. Four teams competed in various events including pistol shooting, a bicycle obstacle course, a sample police exam and multiple law enforcement related scenarios such as handling burglary calls, first aid and use of force scenarios.

In October of 2018 the Explorers went Duluth, MN, to compete in the 23rd Annual Duluth conference. This conference helped prepare them for the Rochester competition. This year's event was held at the Fond Du Lac Tribal and Community College in Cloquet, MN.

These conferences provide the Explorers with opportunities to meet with their peers, be exposed to law enforcement agencies at the state and federal level, and the chance to receive college scholarship money through their participation in the mock scenarios.

Volunteering in the community is also an important aspect of the Explorer program. The Explorers assisted in the Ramsey Co and Anoka Co Polar Plunge events, Blue Line Ball, Guns N Hoses, Blue Heron Days Parade and activities and the 3M Golf Championship in Blaine.

TRAIL WATCH – Trail Watch is a group of approximately 25 volunteers that report incidents observed in our city parks and on our trails to a liaison with the Public Safety Department. Volunteers share information about current issues that need monitoring, and keep an eye on the areas of the city that they frequently visit. Trail Watch volunteers report suspicious activity and potential safety hazards.

During 2018, Trail Watch volunteers completed 491 hours of patrol. During their patrols, observations were made that resulted in 7 safety/maintenance requests, 4 reports of damage to property, 3 reports of after-hours activity in parks, 3 reports pertaining to animal issues, and 2 littering complaints. The Trail Watch volunteers provide a great service to our city by assisting our staff in making sure all the parks and trails are safe for our community to use.

Personnel Changes

New Staff

Krista Marshik, POC Firefighter
Austin Riehm, Police Officer
Garrett Ellertson, Police Officer
Alex Hallin, Police Officer
Lucas Evens, POC Firefighter

Q1 Notable Actions & Events

On January 6, staff led a tour of our public safety facility to a group of 7 year old boy scouts.

On January 14, staff made a school lunch visit to the Pines School.

On January 15, a Women's Personal Safety class was presented by staff.

On January 22, staff presented a K9 demo at Lino Lakes Elementary school.

On January 25, staff presented an Impairment Awareness Training at The Tavern on Main.

On February 26, staff provided a tour of the public safety facility to Cub Scout Pack 432.

On February 26, staff participated in the 2nd annual Guns & Hoses Hockey Game.

On March 7, staff participated in the Century College Law Enforcement Education and Employment Fair.

On March 8, staff conducted a community outreach event at Lakewood Apartments to provide information on crime prevention strategies in multi-family housing environment.

On March 12, staff presented a talk on drugs to a Boy Scout pack.

On March 18, staff led a tour of our public safety facility to a Girl Scout Daisy Troop.

On March 24, staff participated in the Blue Heron Elementary School Carnival.
